SUMMARY

Intermediate Software Developer with experience in Angular, Java, and Spring Boot. Passionate about building efficient, scalable applications and delivering high-quality solutions. I enjoy tackling new challenges, learning emerging technologies, and collaborating with teams to create meaningful software products.

WORK EXPERIENCE

Feb 2026 – present | Ideal Solution

Intermediate Software Developer

- Developed and maintained web applications.
- Designed and implemented new features based on business and client requirements.
- Built and consumed RESTful APIs to support frontend and backend integration.
- Participated in code reviews to ensure code quality and adherence to best practices.
- Maintained and enhanced existing systems while ensuring minimal disruption to users.
- Mentored junior developers and provided technical guidance when required.
- Assisted in the provisioning and configuration of AWS environments for application deployment.
- Created technical documentation for applications, processes, and new features.

Feb 2024 – Feb 2026 | Ideal Solution

Junior Software Developer

- Performed database queries and updates using SQL.
- Participated in Agile development activities, including sprint planning and daily stand-ups.
- Conducted testing and debugging to ensure application functionality and reliability.
- Implemented features and bug fixes based on project requirements and specifications.

May 2023 – Jan 2024 | W3 Technologies

Junior Software Developer and IT Technician

- Provided technical support during dance competitions, assisting judges with the use of scoring and management systems.
- Diagnosed and resolved user issues, ensuring smooth operation of competition software.
- Developed and maintained frontend components using HTML, CSS, and PHP.
- Designed thumbnails for the adverts advertised on the dance world cup app
